Review Script: Bhavika

Original Emirates website vs. Ayush's redesigned prototype. Read aloud in about 1 minute.

Hi, I am Bhavika, reviewing Ayush's website. I'm not very good with websites, so I like things that are simple. On the original Emirates site, I got confused by too many options and wasn't sure which one to click. On Ayush's design, I found where to search flights and where to get Help without thinking. The steps felt clear: search, select, then confirm. A bad point is that I wasn't sure if my booking was really done, so a clearer confirmation message would help. Overall, Ayush's design felt friendlier and less stressful to use.
