Review Script: Harpal

Original Emirates website vs. Ayush's redesigned prototype. Read aloud in about 1 minute.

Hi, I am Harpal, reviewing Ayush's website. I mostly looked at the design. The original Emirates site has strong branding and rich pictures, but it feels busy, with a lot of things fighting for my attention. Ayush's design uses soft blue and white with plenty of space, so my eyes know where to go. The headline is short and easy to read, and the Help button stands out nicely. A bad point is that it feels a bit plain and has less of the premium Emirates feeling. Still, it is clean, easy to read and looks modern.
