Emirates site heatmap

A small version of what Microsoft Clarity shows for a whole website. Browse the seven Emirates screens like a visitor, then open Heatmap or All pages to see where the clicks landed.

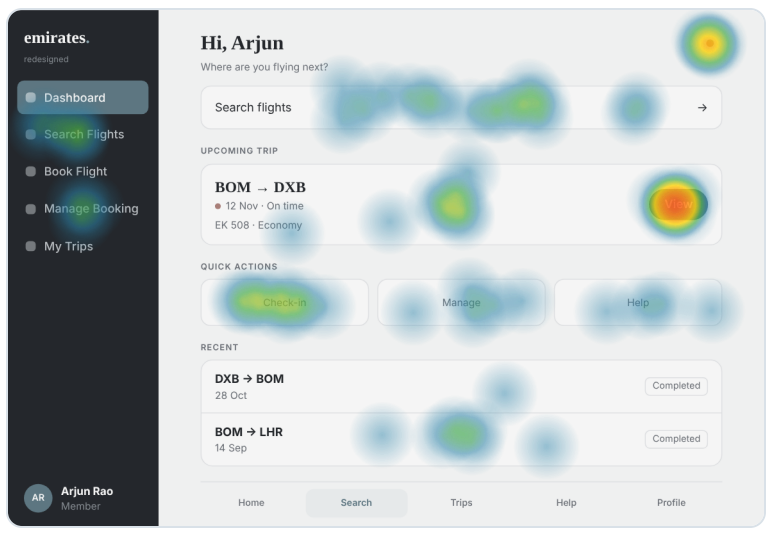

Home — 119 clicks

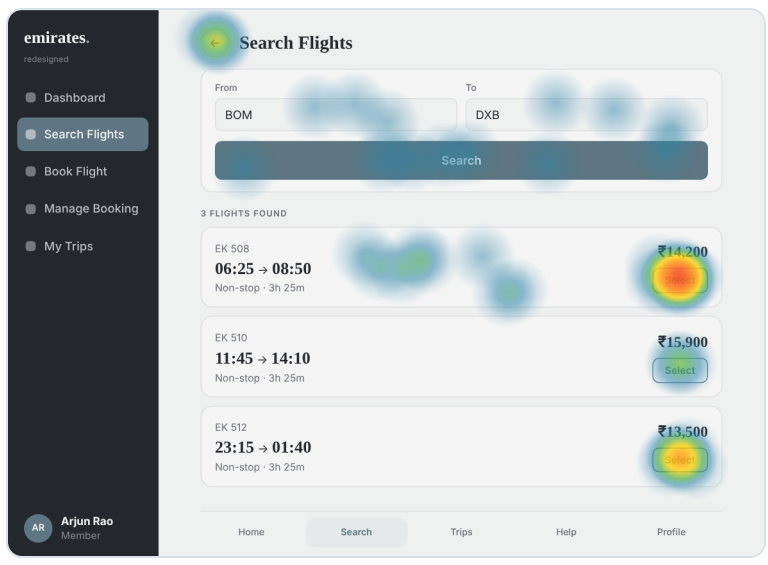

Login — 62 clicks

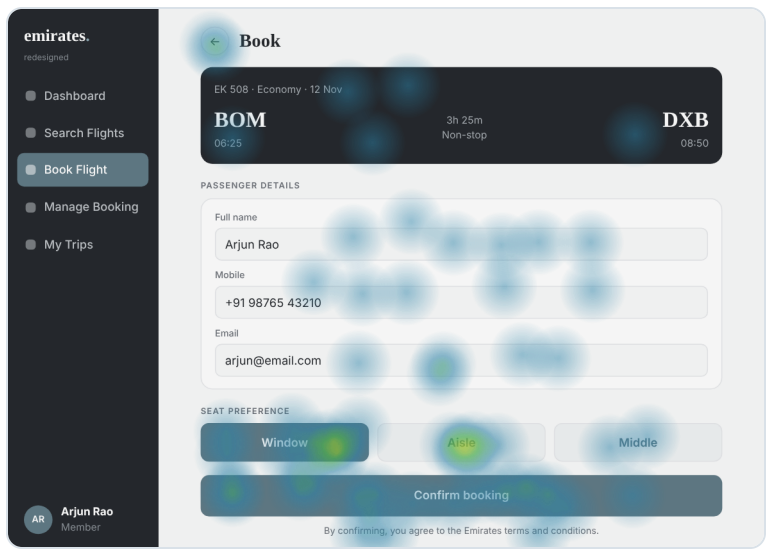

Dashboard — 75 clicks

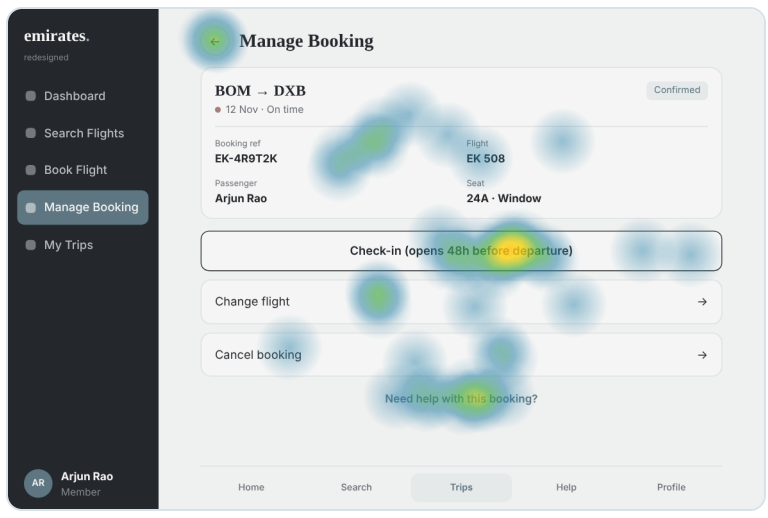

Search — 50 clicks

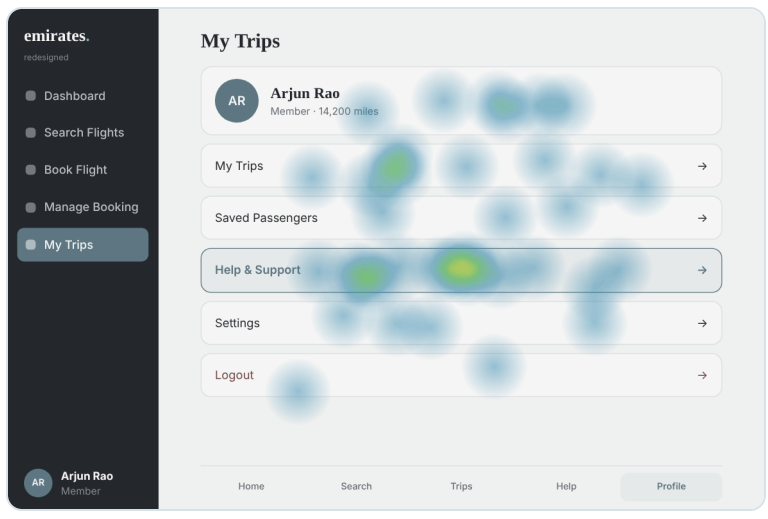

Book — 56 clicks

Manage — 44 clicks

Profile — 38 clicks

How to read this

Red spots got the most clicks. Pale screens with no colour were hardly clicked. Open any screen to see its clicks in detail.

Few clicks — Many clicks

WHOLE WEBSITE

Total clicks	444
Dead clicks	81 (18%)
Rage clicks	18
Home	119
Login	62
Dashboard	75
Search	50
Book	56
Manage	44
Profile	38

Includes 444 sample clicks

MOST CLICKED ON THE SITE

Home: Search flights button	30
Login: Send OTP	18
Login: Mobile or email field	16
Dashboard: Search flights bar	16
Manage: Check-in button	15
Home: Check-in (card)	14

WORTH A LOOK

- Home gets the most clicks (119 of 444).
- "Home: Headline" was clicked 9 times but does nothing. People may expect it to work.
- Fast repeated clicks on "Home: Check-in (card)". It may feel broken or slow.
- 28% of clicks on Dashboard hit things that do nothing.

HEAT SCALE

Few clicks — Many clicks

Dead click: a click on something that does nothing. Rage click: three or more fast clicks in the same spot. The first load has made-up sample visitors so there is something to see. Clicks stay in this browser. This is a teaching demo of the idea, not Microsoft Clarity.
